DANCING ON CLOUDS

Dancing on Clouds.

Make your wedding magical. Something that your guests will be talking about for months to come, with our Dancing on Clouds wedding first dance option. You can have that fairy tale setting as you perform your first dance as husband and wife. Dancing on Clouds is a stunning visual effect that will create a long lasting memory. The first dance is an immensely special moment and is much anticipated by your guests. Dancing on Clouds will create a breathtakingly beautiful scene with the bride and groom dancing together for the first time as husband and wife with a little bit of magic thrown in.

Your dance floor will be transformed instantly with a beautiful sea of cloud which will create that magical look that will really add the "WOW" factor to your first dance. You could even add colour to your clouds with the addition of our Mood Lighting.

Dancing on Clouds is a special effect created by using a professional dry ice machine which produces thick, white fog that hugs the floor and dissipates without rising. It is perfectly safe, odourless and harmless and will not leave any residue or effect fire alarms.

MOOD LIGHTING

Mood Lighting is an extremely effective way of changing the colour, mood or feel of your venue.

Mood Lighting brings the room to life, complementing your own colour theme or creating new one. Imagine your guests reaction when they enter the room which is bathed in colour instead of the usual white room lighting.

Give your event the WOW FACTOR

GOBO PROJECTION

Gobo projection uses a glass or metal disc which fits inside a projector, onto which can be etched or cut out, your names, date of wedding, or other images which would then be projected onto the dancefloor or walls of your venue.

Two Starburst Gobos projected onto a domed ceiling along with BLUE Mood Lighting.
